

# Food Preparation and Nutrition

Walton High School

Year 7 Module 1

# Welcome to Food Preparation and Nutrition

In Food Technology you will be making a variety of products and will be looking into the nutritional aspect of the ingredients. As you work through Key Stage 3 (years 7-9) you will build up your skills and knowledge of food. We have tried to include as many practical activities as possible.

All of the recipes in this booklet can be completed within the time of the lesson, including the clearing up of the work area. The clearing up at the end of the lesson is an important part of your learning and you are constantly assessed by your teacher on your time management, hygiene and safety practices.

Your teacher will go through the recipes in time for your next practical lesson, so that you can organise your ingredients to bring into the lesson. To help there is also a list of dates below showing when each product will be made. Please note that these dates may have to change but we aim to give students at least a weeks notice for ingredients needed.

Participating within the practical lessons is compulsory. You may not make all of the recipe's during your Food module, however we have included some that you may wish to try at home. We have been mindful to keep the cost of the recipes within this booklet as low as possible.

In the department we encourage students to adapt recipes/ingredients to suit individual preferences. E.g. to be suitable for different diets and / or lower the cost further. Adaptations that can take place will be discussed within lessons.

We are a Nut Free department—we have made all of our recipes nut free, therefore please don't bring any nuts into the department. We ask that all parents, carers and guardians check through the recipe booklet and inform the school if there are any ingredients that your child may be allergic to.

For hygiene and safety reasons all students are expected to tie up long hair. Students are not allowed to wear nail varnish, nail décor, false eyelashes or jewellery in practical lessons.

We hope that you enjoy the course.

# Moroccan Couscous

## Ingredients and Equipment:

- 125g couscous (not the giant type)
- 1 vegetable stock cube
- spring onions
- 1 red pepper
- 1 tomato
- OPTIONAL - Small bunch flat leaf parsley.
- OPTIONAL – handful of black olives chopped or 100g chopped dried apricots.
- Container to transport your dish home

## Method:

- Collect equipment, organise work area.
- Place the couscous in a large bowl.
- Boil the kettle. Once water is boiled carefully measure 150ml of boiling water into a jug. Add a stock cube to the water and stir until it has dissolved.
- Pour the stock over the couscous. Add more boiling water if needed to make sure the water just covers the couscous. Leave for 10 minutes.
- Meanwhile chop the onions, pepper, tomato and parsley, and chop any optional ingredients.
- When the couscous has absorbed all of the water fluff it with a fork.
- Gently stir through the onions, pepper, tomato and parsley and any remaining ingredients.
- Wash up, tidy area and check equipment.
